

THE CENTRAL RECORD.

TWENTY NINTH YEAR

LANCASTER, KY., THURSDAY AFTERNOON, SEPTEMBER 12, 1918.

NUMBER 24.

CONDITIONS ARE SUCH THAT

certain kind of farming implements are very hard to get. If you are interested and need anything in this line, give us your order now.

LIVE AND LET LIVE FOLKS.

REGISTER TO-DAY.

The recent rains have assured good fall grass.

To-morrow is Friday the 13th. Watch your step.

Doves are said to be more plentiful than in years.

Cool nights bring visions of 'possum and sweet taters.

Early risers claim to have found frost in the lowlands and along creeks Sunday morning.

The sight of many good sized "patches" of sorghum in the county brings the hope that "long sweetenin'" at least will be plentiful during the autumn.

The Kaiser's hordes seem to have abandoned the "goose step" and adopted the "fox trot" in their eagerness to evade the eager khaki clad Americans.

If you think Lancaster people are not patriotic and anxious for the war news, just visit the depot and see the throng that is there every night, eager for the evening papers.

Registration booths will remain open until 9 o'clock tonight; if you are 18 years old and have not registered your 46th birthday you must register. Patriots will and others must register.

In this issue of the RECORD appears the Public Rental of a fine 235 acre farm in Madison County. Read the adv. for particulars or phone or write Z. T. Rice, Richmond, Ky., acting for Mrs. Zelia Donaldson. 21st.

Despite high prices of both labor and material, there is considerable building in progress in and about Lancaster.

Attractive wages are making severe drains upon the already sadly depleted labor supply in this country, as many of our people are at work in the various nitrate plants throughout the country.

Lancaster housekeepers seem to have conformed cheerfully to the ruling for the conservation of labor which took off the grocery delivery wagons, and are toting their own groceries without complaint.

If you are interested in hog raising, you should read a good Journal, published exclusively for such. In this issue you will find an ad of the Poland China Journal, which is published for \$1.00 per year, a sample of which can be seen at this office. The boys and Girls Pig Club should especially take notice.

FALL TAILORING OPENING

Special cutter representing The Storrs-Schaefer Co., Cincinnati, Ohio, will be with us this week, Sept. 12, 13, 14, 1918. Let us have your measure for suit or overcoat.

Jas. W. Smith.

SCIENTIFICALLY FITTED.

Our scientifically fitted glasses, made to individual requirements, will give you the clearest vision that science can produce. J. J. BYRNE, exclusive optometrist. At the Kengarlan Hotel, Lancaster, Sept. 16 to 21st.

STORE CLOSED

The Joseph Mercantile Co., will be closed next Monday Sept. 18th, that date being the Jewish Day of Atonement.

MEN MUST REGISTER

You must register today. All men between the ages of 18 and 45, who have not previously registered must do so today. If you fail your punishment is one year imprisonment.

SICK IMPROVING.

Miss Elizabeth Johnson and Mr. Albert Ware, both of whom have typhoid fever, are getting on nicely and at the present rate of improvement, their entire and rapid recovery is expected and hoped for by their many friends.

VAULT ENLARGED.

In order to meet the needs of their rapidly growing business, the Citizens National Bank has just about doubled the capacity of their already spacious vault. The work is nearing completion and will when finished, render this one of the most commodious and up-to-date banking establishments in the country.

"GOING TO CHARITY'S"

The local nimrods who are wont to spend a week on the Rockcastle and Cumberland rivers every autumn, are beginning to prepare for their annual pilgrimage to "Charity's", and it is expected that two parties will leave here, one about the 23rd of this month, and the other about October 1st.

SOME CONSOLATION.

The exceeding scarcity of fruits and vegetables is somewhat softened by the knowledge that the pumpkin crop is an unusually good one this year, and this coupled with the fact that the rabbit crop is the best in years gives promise of a square meal occasionally, even tho it be an humble one.

AS TO SEED CORN.

Last spring seed corn not only commanded a fabulous price, but was well nigh unobtainable. Now Garrard county can raise as good seed corn as is obtainable any where in the world, under favorable circumstances. Garrard county farmers know just as much about selecting seed corn. It is reasonable to suppose that a goodly quantity of desirable seed corn may be obtained from the present crop, and as now is the time to select and preserve it, we respectfully suggest that farmers attend to this very important matter now, and avoid the difficulties which faced them at the last seeding time.

SERIOUS ACCIDENT.

While returning from a professional call on the Buckeye Pike about 9 o'clock last Saturday night, Dr. J. A. Amon collided with a runaway horse on the steep hill near Mr. S. H. Estes'. The horse was killed and the machine was almost a total wreck. A young Mr. Scott, who was in the machine with Dr. Amon, was severely cut, sustaining at least a dozen wounds from the broken wind shield about his person, none however thought to be dangerous. Dr. Amon was luckily uninjured, save a cut about the face. The horse was a valuable animal and belonged to a colored man named Reynolds. The horse is said to have become frightened and ran against a telephone pole, disengaging itself from the tangle to which it was hitched, and continued its mad flight until it met its fate as above related.

CIRCUIT COURT ADJOURNS.

Circuit Court adjourned last Saturday, and Circuit Clerk Burnside tells us it was the dullest term held during his incumbency, and as the records show, for many years previous.

Henry Teater for personal injuries inflicted on John Sewell suffered a judgment of \$800, against him in favor of Sewell; in the case of Robert Dunn against the L. and N. R. R. a verdict for the defendant was given.

The grand jury rendered their report after returning ten indictments, mostly for misdemeanors, and was discharged. This body in its report took occasion to compliment the various county offices in that they were carefully and efficiently attended; the jail they found without a prisoner, but in a splendid sanitary and well kept condition. They recommended that iron shutters be placed on the windows of the clerk's offices, to protect the records from all possibilities of fire.

EAGER FOR COAL.

Notwithstanding the fact that local coal dealers have used every effort to supply every demand for coal during the heated season, it appears that many have not as yet laid in their winter supply of fuel, and there is yet a spirited demand for fuel. Especially is this the case in the country, and when a car makes its appearance on a railroad siding there is usually a string of wagons anticipating its arrival and it is unloaded in record time.

WHY?

For a while the local church bells were sounded at noon each day, calling for a word or a period of silent prayer for the success of the allied armies. This was a beautiful practice, and one that called for the expenditure of very little time or money.

We have upon our Public Square a tall, splendid flag staff, but this staff is unadorned by a flag.

Surely our patriotism is not upon the wane?

Then why the discontinuance of the noonday ringing of the church bells, and why does not a good size edition of the stars and stripes adorn the flag pole?

CALL FOR VOLUNTEERS

A Patriotic Service is asked of men and women of Garrard County by the War Department to assist registered men in properly making out their Questionnaires. The Legal Advisory Board asks those who will be willing to do this work to send their names to Joe E. Robinson, Chairman, at once. They will be made associate members of this Board and given instruction in the work.

This is the most important patriotic work now before us and all persons who will assist should immediately give notice. This service is absolutely free to the Registrant, the Government will not permit a charge to be made for this work. Some Fourteen hundred men will be within this registration and this work will require a great number of both men and women to assist these registrants.

RAINS WERE CHEERING.

Ten days ago the outlook for the weather was most gloomy; stock water was exceedingly scarce, the corn and tobacco crops were suffering and the fall grazing was almost despaired of. Copious rains of last week placed an entirely different aspect upon affairs. Springs and streams are running full force and there is an abundance of stock water. The late corn will be helped and the yield improved materially, while the early crop at least sustained no harm by reason of the downpour, and we are assured of splendid fall grazing. Tobacco perhaps benefitted most by the rains; while a great deal of forward tobacco has been cut, housed and is curing nicely, yet fields of late tobacco which a week ago bore promise of being a complete failure, have undergone such wonderful improvement, that with the holding off of frost for a reasonable length of time are expected to come up to the usual average. All of which brings a smile of gratification to everyone, the farmer in particular.

THAT OTHER ARMY

Not only America but all the world is singing the praises of the Yanks. They have had their baptism of fire and have nobly stood the test. They have carried the fight to the enemy with a dash and vim that has been irresistible. They have vanquished the best of the crack Prussian division set to stay their advance. They have upheld every tradition of American arms and have thrown a chill of apprehension into the very heart of the German hordes. They are winning their crosses every day.

But there is another army of which no American is proud, nor ever can be.

THAT OTHER ARMY OF NON-BUYERS OF LIBERTY BONDS!

In it are the slackers, the pacifists, the so-called conscientious objectors, the miserly dollar pinchers and the Pro-Germans; the cringing, apologetic contemptibles of earth.

And there also to their shame are those others who are selfishly indifferent to the sacrifices being made for their protection, their safety, their continued existence in a land of peace and liberty. The smug, self-satisfied apostles of ease, content to let others serve.

This is the army that is fast getting beyond pardon.

Thank God you are not in it!

And if you are, DESERT.

The How and Why of Caloric Pipeless Heating

The CALORIC is not a pipe furnace, so this circulating warm air, passing thru heat of from three hundred to eight hundred degrees, in which no germ can live, is kept pure and healthful.

The CALORIC is guaranteed by the oldest and largest manufacturers of warm air heating systems in the United States. You take no chances when you buy a CALORIC.

Whether your house is old or new, the Caloric is easily installed in one day, without interruption of your present heating arrangement. No holes knocked in your walls, no valves, fun of heating system.

The Caloric requires but one register and occupies little space. It burns any fuel, and needs hardly any attention. Makes housework one-third easier, as there is no mess from carrying in coal and carrying out ashes—no smoke, gas or soot. Eliminates fire danger and increases the value of your property.

Visit us and we will gladly supply full information without in the least obliging you to buy.

KINNAIRD BROS

GARAGE SOLD.

The Rex Garage, the property of Kinnaird Bros, which was sold at auction on last Saturday, was purchased by Messrs Roy Schooler and S. T. Sanders, the price paid being \$1.15 on the invoice price.

This is one of the most commodious and best equipped garages in Central Kentucky and we predict a splendid business for the two clever gentlemen who purchased it.

HENS LACKING

IN PATRIOTISM.

'Tis a great pity that some means cannot be devised to imbue the hens of the country with the prevailing spirit of patriotism. We are told that the present scarcity and resultant high price of eggs is due to the "moulting season", but it does appear to us that this, perhaps necessary season, is being unnecessarily prolonged. Anyway, eggs are higher and scarcer than we ever knew them at this season of the year.

JOY RIDING SUN-

DAY CURTAILED.

The automobile on the streets of Lancaster last Sunday was noticed by its absence. Only those church goers who live at a distance from their place of worship and who had no other means of conveyance utilized them. A few straggling cars darted about covertly, but the sight of so many people viewing them with eyes of suspicion soon put them to shame and they soon disappeared. It is thought and sincerely hoped that the call for the conservation of gasoline will be heard and heeded with the coming of another Sabbath without the adoption of stringent measures, and that the joy riders will confine their operations to six days of the week.

NEW ENGINEER

AT POWER PLANT.

During the absence of Parker Jenkins, who is working at the great powder plant in Nashville Tenn., for a few months, Mr. Bob Ross is supervising the pumping station at the lake. Mr. Ross served in this capacity for many years and is fully qualified to handle the work.

It is a source of great pleasure to our people to know that, notwithstanding the considerable amount of dry-weather we have experienced this summer, there is more water and of a better quality in the lake than has ever been known at this time of the year. This fact is probably due to the spirit of conservation among the consumers, and further to the fact that the lake is holding splendidly, and what water is escaping is being caught and turned into the filter.

MARRIAGE VOWS GROWS BURDENOME.

If there was very little other business in the recent circuit court, the record was broken for divorces. Eight couples to whom the matrimonial yoke had become galling, were granted legal separation. For a community of this size it does appear that this is an abnormal number of separations to be sought and granted, and we are told that there are several more pending.

SMALL IMPROVED

FARM FOR SALE.

A good home of 43 acres in Garrard County, sand-stone land, all in grass except 10 acres, good improvements, two never failing springs and a good pool. Outside fences good. If you are looking for a bargain see the farm of the late John Beazley on Boone Creek before September 23rd. It will be sold by W. H. Brown, Master Commissioner on Sept. 23, 1918, in Lancaster, before the Court House door. A good home at a bargain. Look at it before the day of sale. If interested call on Arthur Beazley or Clarence Beazley, post office address Lancaster, Ky.

WORK ON GOVERNMENT

BUILDING PROGRESSING.

Structural iron for the main building of the local government building is beginning to rear above the superstructure, and the laying of brick is now in progress. War time conditions have served to hinder the construction of the house, material has been delayed, almost impossible to secure delivery, and progress has of necessity been slow.

However the contractors have not been daunted by their many hindrances, but have kept steadfastly to their task, and in the course of time we may expect to have completed our new post office, which will be a credit to the community.

VALUABLE TRACTS OF LAND TO BE SOLD.

We wish to call attention of our readers to the four sales of land to be made by Mr. W. H. Brown, Master Commissioner of the Garrard Circuit Court. One on Thursday, Sept. 19th and the other three on Monday Sept. 23rd. The land to be sold affords an opportunity for good homes and will probably sell at a reasonable figure. Some of these tracts are small and with good improvements and will be sold in reach of those of moderate means. By looking over the sale advertisements in this issue and a visit to the premises would place you in a position to be a bidder if they are sold at a bargain.

FARM STOCK

MANY SHEEP KILLED BY DOGS

Ways of Preventing Ravages by Animals Are Suggested by Agricultural Department.

(Prepared by the United States Department of Agriculture.)

Unified state laws are advocated by the United States department of agriculture as being the most effective method of dealing with the sheep-killing dog. Investigation by the department among sheep owners in 15 states east of the Rocky mountains shows that out of a total of 6,836,492 sheep in the 502 counties reporting, 34,683 were killed by dogs in one year (1913) and were paid for by the counties. At the same rate of loss in other farm states the total annual destruction of sheep by dogs would be 107,700.

But these figures are based only upon the number actually paid for, and it is more than probable that the true losses far exceed this. It is known that many sheep are killed which are never reported to the county official.

In 1913 crop reports in 36 states submitted estimates which showed that the number of sheep in those states could be increased 150 per cent without displacing other live stock. Such an increase would place approximately 34,000,000 more sheep in these states than there are now. Of 1,411 answers received to the question as to whether sheep raising is profitable in the farm states 887 answered "yes." Of 894 answers as to the causes preventing increase in the numbers of sheep 531 said, "Dogs."

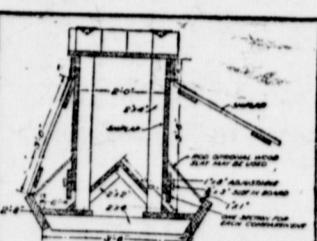

USE SELF-FEEDERS FOR HOGS

Device Will Give as Good Results as Most Expert Hand Feeder—Time and Labor Saved.

(Prepared by the United States Department of Agriculture.)

By means of the self-feeder the average farmer will have as good results as the most expert hand-feeder, and the results will be obtained at much less expense of time and labor. For the average farmer there is little doubt which method is the more economical, for the self-feeding system is advantageous in every respect. Its use results, first, in larger daily gains in live weight, bringing the pigs to a marketable size at an earlier date; second, feed is consumed more rapidly, and consequently gains are more rapid; and, third, as there is an actual saving in the amount of feed required to produce 100 pounds of gain, it is shown that the increased feed consumption and the more rapid daily gains are not made at the expense of efficient use of the feed. On the contrary, a smaller amount of feed is consumed in making pork, which is a fact of extreme importance at present. The last and one of the most important advantages to the farmer at this time is the saving of labor, for although daily watch must be kept on the self-feeder to see that each compartment is well supplied and not clogged, this requires only a fraction of the time necessary to handle the same hogs several times a day.

The self-feeder may be adapted to the use of any kind of grain or feed, although shelled grain and ground feeds are most commonly used. It

Ohio Self-Feeder—End View With End Siding Boards Removed.

may be adapted to handle ear corn, but such a feeder must be of large size and heavily made in order to hold sufficient grain to feed a bunch of hogs several days without refilling.

In order that the self-feeder may readily be adapted to different kinds of grains it should be constructed with some means of regulating the opening through which the feed passes. For example, cornmeal or barley requires a smaller opening to prevent too rapid a flow of grain than is required in the case of shelled corn. A well-constructed self-feeder will last a number of years, and as it may not always be convenient to feed the same grain every season some provision must be made to accommodate different sizes of grains.

Care should be taken to see that the self-feeder is always supplied with each feed, for if one part of the ration is missing the pigs will naturally eat an increased amount of any other available nutrient, and in such a case will make very poor use of it. For example, when tankage and shelled corn constitute the ration, if corn were to become exhausted the hogs would naturally eat a very large amount of tankage, which would not only fail to produce rapid gains, but would increase the consumption of a very high-priced feed. Too much emphasis cannot be placed upon this point, for the beginner is apt to become careless in the use of a device which does not require constant care.

Babies Burdened With Names.

It begins to look as if the same person who used to christen the Pullman sleepers has taken up his residence in this city and is now naming war babies. A glance at the vital statistics records shows that some of the girl babies are going through life burdened with Christian names that will compel the growing generation to give considerable time and study to pronounce them. TIME IS U. S. BEST
SOLDIER OF FINANCE

It Works Always To Put Liberty Bond Values Higher

Time works in favor of Liberty Bonds.

Some of the more restless-minded holders of Liberty Bonds of the Second and Third loans have lost sight of that fact and allowed the slight slump in the market price which took place this summer to worry them.

Those prices reflect only a temporary condition, says the Wall Street Journal, and the Treasury department is already in process of remedying it. The slump in part has been due to a misapprehension on the part of small investors who have gained a superficial knowledge of tax exemption features.

While bonds of the Second and Third loans, the 4 and 4½ per cent bonds, are taxable and the 3½ per cent bonds are tax free the small investor cannot be taxed by any income tax law now in effect or any later to be enacted on any of the bonds unless his holdings of 4 or 4½ bonds reach \$5,000 worth or more. And yet a study of the transactions in bonds to date has revealed the fact that many of the sales are by small investors who have disposed of their 4s and 4½s to buy 3½s because some one has told them the 3½s were tax free.

Everything which congress takes up in the way of financial legislation gets the careful attention of the Treasury department. Nothing is allowed to go far if its provisions in any way tend to lower values on Liberty Bonds. Liberty Bond holders have first consideration and everything is being done to facilitate the financing of the war.

Aside from the tax free features, which are only present influences after all, the Liberty Bonds should stand out as gilt-edged investments for their after-the-war value. The capital which they will restore to the investor after the war will have far greater purchasing power than the money which he is putting into the bonds now when money is so cheap and plentiful.

They Give Blood
Abroad; We Must
Give Our Treasure

Anyone proposing peace with Germany before Kaiserism shall have been crushed out of existence should either be interned or placed in an insane asylum for medical treatment.

That is the verdict of Hudson Maxim. The great gun maker gives tersely some of the reasons why the government needs five or six billion dollars more immediately—reasons why the fourth Liberty loan must go over with a big safety margin, why otherwise

the loans soon to come must go over the same way.

"We cannot consider any terms of peace whatsoever with the German government as now constituted," Maxim's letter goes on to say. "Germany must be licked and the Hohenzollerns kicked off the throne before we can even talk peace without outraging our self-respect. The German military must be broken and so shattered that it can never be reunited.

Those militaristic bandits of the breed of Attila who cold-bloodedly prepared to plunder the world and enslave mankind are not fit to place their names to a peace compact beside those of the heroes who shall, with sacrifice of blood and treasure, save the world from their clutches.

There is but one way to peace and that is the way to Berlin."

Liberty bonds will open that road for the American boys. Those at home must sacrifice their treasure as those over there sacrifice their blood.

Titanic Auction SALE

Thursday, Sept. 19th, '18

I WILL SELL FOR J. H. BAUGHMAN

510 ACRES of LAND
THE CREAM OF BOYLE COUNTY.

and J. H. BAUGHMAN will sell

750 Cattle and a Lot of Mares and Mules

LOCATION:—Known as the "HILL TOP FARM", two miles from city limits of Danville, Ky., on Hustonville Pike. Boyle county has the best pikes of any county in the State and this pike is the BEST one out of Danville: perfectly straight from city limits and no railroads to cross to this Beautiful Farm, only 10 minutes drive.

DESCRIPTION:—Broad, gently sloping fields, almost level, with here and there a black walnut, sugar tree or stately elm. The LAND of BIG FAT CATTLE and BROAD ACRES OF FERTILE SOIL. 390 acres of this land is in SOD and has been for years, the remainder recently broken from sod in cultivation as follows: 70 acres in corn, 10 acres in wheat stubble, 30 acres in buck-wheat, 10 acres in tobacco and hemp. This land has been grazed for years with BIG CATTLE and is NOW ready for the man who wants to make MONEY growing CORN, HEMP, TOBACCO, CATTLE and HOGS.

Once in a Lifetime is the Opportunity Offered to Purchase Such a Farm.

ADVANTAGES:—A BEAUTIFUL HOME, SPLENDID NEIGHBORHOOD, the adjoining land owners living on their farms. CLOSE TO CHURCHES, GRADED and HIGH SCHOOL, CENTRE COLLEGE and KENTUCKY COLLEGE FOR WOMEN, and the BEST TOBACCO, HEMP, GRAIN, HOG and CATTLE MARKET in Central Kentucky.

DANVILLE and BOYLE COUNTY do not have to be advertised. Their reputation is established. Known everywhere as a moral and educational center with a population of hospitable and prosperous people. Danville is also a great railroad terminal and ONE MILLION DOLLARS has already been authorized to be spent at Danville in the improvement of railroad facilities.

"HILL TOP FARM" is within one mile of the L. and N. Railroad and adjoins the C. N. O. and T. P. Railroad, with side track on the farm. Electric line runs by the farm and only has to be tapped to equip the farm with light and power. "Hill Top Farm" is ABUNDANTLY WATERED with seven NEVER FAILING SPRINGS, four wells and one cistern.

IMPROVEMENTS:—Main dwelling eight large rooms, two porches, halls and bath-room with butler's pantry. Heated by furnace, two room servant house and garage, beautiful yard with large shade trees, large two story stock barn, basement will hold 125 cattle, second story nine large box stalls and the main portion prepared for hay fork and will hold 7,000 bales of hay. Fertile garden and plenty of fruit. The second set of improvements consists of a splendid six room two-story dwelling, three porches, two stock barns, other out buildings, cistern, good garden, large yard and mulberry, sugar tree and wild cherry shade trees. This set of improvements is within ONE-HALF MILE OF SPLENDID GRADED SCHOOL. Two other sets of improvements on farm.

SUB-DIVISION:—200 acres with main dwelling, a 60 acre tract and 80 acre tract with improvements, a 40 acre tract with improvements, to which may be added a 20 acre tract and a 14 acre tract, also a 45 acre tract with improvements and other tracts. We always SELL to suit the BIDDERS, so two or more tracts may be combined to suit the purchaser in the number of acres.

CATTLE

100 head of Black Poll Angus Feeders, 800 to 1,050 pounds, 60 or more White Face Hereford Feeders, 800 to 1,050 pounds, 240 High Grade Short Horn, Red and Roans, 800 to 1,100 pounds, 50 Black Yearling Cattle, 500 to 700 pounds, 200 Hereford and short horn Yearlings, 500 to 750 pounds, 75 High Grade Poll Angus Heifers, 500 to 600 pounds; 25 Hereford and short-horn Heifers, 500 to 800 pounds.

These cattle are all good quality, been picked for auction sale for twelve months. Native Kentucky and Tennessee cattle. BEST LOT OF CATTLE EVER OFFERED FOR SALE IN CENTRAL KENTUCKY. Just a few plain cattle and these will be sold separately.

The cattle will be sold in bunches of ten and in car lots, principally in car lots.

MARES and MULES

12 DRAFT TYPE BROOD MARES, all broken to work, five with mule colts at side and three with horse colts. SIX SPLENDID YEARLING MULES from above mares, 4 THREE YEAR OLD MULES from same mares. 2 TWO-YEAR-OLD MULES from same mares, 2 six-year old walking mares; 1 aged Jack; 7 PONIES from colts to 6 years old.

TERMS:—Easy on the land and stock and satisfactory to purchaser.

Sale begins promptly at ten o'clock.

Mr. Baughman, Mr. Moss or myself will show the farm at any time. Notify us and we will be glad to meet the L. and N. train or the Southern train at any time before or on day of sale.

THE SALE WILL BE POSITIVE BOTH OF THE LAND AND STOCK. NO BY-BIDDING AND NO PROTECTION WHATEVER. WE WILL BE IN THE HANDS OF THE PURCHASER. AN ABSOLUTE SALE.

Mr. Baughman, who is known by all cattle men, will have charge of the Cattle Sale and Swinebroad will be in charge of the Land Sale.

For further particulars as to Live-Stock inquire of J. H. Baughman, Danville, Ky., Phone 1802, and as to the land

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch Houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get **better meat cheaper** to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes **here** to buy your meat for **you**—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.

LIBERTY BOND DISLOYALISTS ARE SENTENCED

Cleveland, O.—The men who believed that they could not be touched by the law for Liberty Bond dealing of almost any character whatever are learning their mistake.

The recent arrest and conviction and sentencing of men who have depended upon alluring ads to lead Liberty Bond owners who needed the money into their offices ought to have a chilling effect upon other brokers who have built their hopes upon the same foundation.

Isadore Gantz, pawnbroker of Farrell, Pa., was arraigned and held on \$1,000 bail for the November grand jury session. He advertised to buy bonds, and then offered the bondholders who responded to his ad about 80 cents on the dollar for their bonds.

He argued to anyone who questioned his policy of cutting the market price of the bonds, that anyone had a right to sell any bond he owned at any price he chose to take—and could get; and that anyone had a right to buy a bond at any price he saw fit to offer—and could get the bond for. It is the same argument which has been used by all of the bond price cutters. And in ordinary times it would hold, probably. But Mr. Gantz learned, when he was before the district attorney, that the United States is at war, and that there are, in consequence, limitations to certain activities which do not exist in time of peace.

In order to give an excuse for his offered price for the safest securities in the world—United States government bonds—Gantz was forced to argue that they were not worth much more than that. His prosecution was therefore possible under the sedition law.

W. S. Bennett of Youngstown was sent to the workhouse within the last few days for similar suggestions, and other cases are in process of being prosecuted in the fourth federal district at the present time.

Lewis B. Franklin, director of the United States war loan organization, in addressing a meeting of the Liberty Loan county chairmen of this district, emphasized forcefully the importance of keeping one's bonds, and of urging other people to do so.

It is the same argument which has been used by all of the bond price cutters. And in ordinary times it would hold, probably. But Mr. Gantz learned, when he was before the district attorney, that the United States is at war, and that there are, in consequence, limitations to certain activities which do not exist in time of peace.

In order to give an excuse for his offered price for the safest securities in the world—United States government bonds—Gantz was forced to argue that they were not worth much more than that. His prosecution was therefore possible under the sedition law.

W. S. Bennett of Youngstown was sent to the workhouse within the last few days for similar suggestions, and other cases are in process of being prosecuted in the fourth federal district at the present time.

Lewis B. Franklin, director of the United States war loan organization, in addressing a meeting of the Liberty Loan county chairmen of this district, emphasized forcefully the importance of keeping one's bonds, and of urging other people to do so.

He argued to anyone who questioned his policy of cutting the market price of the bonds, that anyone had a right to sell any bond he owned at any price he chose to take—and could get; and that anyone had a right to buy a bond at any price he saw fit to offer—and could get the bond for. DEMOCRATIC TICKET.

For United States Senator.

A. O. STANLEY,
of Henderson, Kentucky.

For Congress

HARVEY HELM,
of Stanford, Kentucky:

The State Executive and Central Committees of the Democratic Party have nominated Governor Stanley to fill the vacancy in the nomination caused by the death of Senator James. And the Governor's name will appear upon the ballot at the November election as the standard bearer of his party.

Some democrats in Kentucky thought the Committee should have ordered a primary or a convention to select the nominee, but after the law of the State was examined carefully it was the opinion of the leading attorneys, who advised the Committees that there was no provision of law authorizing the calling of a primary to fill the vacancy in the nomination and it was the duty of the Committees to select the nominee. We believe the action of the Committees meets the approval of the democrats of the State. At the request of the Courier-Journal that democrats give their views by writing to the Committees, more than two thousand letters were received and all except seven asked the Committees to make the nomination and almost universally asked that Governor Stanley be made the nominee. In naming Governor Stanley at this time the party becomes once more united.

Before Governor Stanley was nominated the Committees sought the advice of many prominent democrats of Kentucky, including Senator Beckham, who thought it was the duty of the Committees to make the nomination and after Governor Stanley was nominated thoroughly approved the Committees' actions and made it convenient to call upon the new nominee and pledged his hearty support to the party's candidate. Governor Stanley and Senator Beckham will probably appear upon the stump together over the State and all factional bitterness that has divided the party in recent years will now disappear and the nominee should be elected under these circumstances by the old time democratic majority.

By appointment of the Governor, Hon. George B. Martin, of Cattlesburg, will represent Kentucky in the United States Senate, filling the vacancy caused by the death of Senator James.

While the new Senator has never been actively engaged in politics as an office seeker, he has for a number of years tak-

en an active interest in the Democratic Party. Senator Martin is regarded as one of the ablest and most successful lawyers in the State and a gentleman of the highest character and integrity, thoroughly democratic in all his views and can be depended upon to carry out Senator James' plans and policies as nearly as any one who could have been selected. The new Senator will stand by the President in his war policies and be active and industrious in carrying out the Nation's war program in every respect. Kentucky's junior member of the Senate will take a high position in that great body and his constituents will be proud of the record he will make in the short time that he is permitted to serve.

**DEMOCRATIC NOMINEE
FOR THE SENATE**

The name of Governor A. O. Stanley will appear upon the official ballot as the democratic candidate for the United States Senator at the November Election. Senator James, who received the nomination at the August primary having died, it be-

GOVERNOR A. O. STANLEY.

came the duty of the Democratic Committee for the State to select the party's candidate. Governor Stanley being the only candidate before the Committees, received all the votes except one. The Committees received hundreds of letters requesting the nomination of Governor Stanley, by the Committees, which indicated that the Governor was the choice of the party.

GENERAL REGISTRATION

Under the broad authority given the Kentucky Council of Defense provision is made for a general registration of all the people in each County of the State. In the future, the date yet to be fixed, a general registration of all persons in Garrard County over sixteen years will be required to meet in their respective school districts and register their name giving their age and occupation, and state the amount they have subscribed for Liberty Loan Bonds, War Saving Stamps, the Red Cross and the Y. M. C. A., and for any other patriotic purpose since the war. This is one of the biggest undertakings in the State and will be the perfecting of organizations for each County for war work. Before this, advertisement will be given of the big undertaking and the people advised of the aims and purpose of this registration is had due publicity and general registration. Some of the counties in Kentucky have already had it and are greatly pleased of the organization acquired in this way.

WHAT SHALL WE EAT DURING THE COMING WINTER?

This is a question more easily asked than answered. The shelves of the storeroom and pantry of the average housewife bear less canned fruit and preserves than in many years; the blackberry, always looked upon as the poor man's friend, was a complete failure this year, the strawberry and raspberry crops were short and very high, and there was perhaps never such a scarcity of fruit in the county, neither apples or peaches are to be had.

The continued dry weather during the height of the vegetable season made the crop exceedingly short, and unless we have a long autumn with frost holding off for some time, we may not have many vegetables "put up". However without early frost, there is a possibility of late beans, corn, and tomatoes and a liberal supply of these commodities to fill the depleted stock of eatables against the coming winter.

KHAKI COLUMN

Sunday, Aug. 18,
"Somewhere in France."

Dearest Mother, Father, Grannie, Sisters and Bros.

A few lines to let my dear ones back home in dear old Sunny Ky., know I am well and happy and enjoying my "visit" in France, and hope by the time this reaches you it will find you all in the best of health, and enjoying God's beautiful rays of sun.

I am not so busy now—but at that I have plenty to do, altho a little work hurts no one and really makes a real man of him. This is the first time I was ever so far away from home—of course I have been to Paint Lick, Bryantsville and Stanford, and a few places but this place has them all beat.

Tell my old friend Mr. J. S. Haselden, that when I get home I want to get into the Real Estate business with him as I have had some experience in that line "covering ground".

I wish I had a nickel for every mile I have traveled I would get a 48 hour pass, buy me an airplane and come home to see you.

When I got your letter with the good U. S. Money in it, I got it changed into French money and wished you could have seen the francs that I got. I was some rich, as the French people talk about francs the same as we in the states talk about dollars. We say for instance, that it is worth so many dollars, the French say it is worth so many francs, and a franc is worth about 18 cents in our money, and I had 11 1/2 francs for the \$2.00. Seems and sounds funny, doesn't it?

Mama and Papa, dear, I think of you all daily and I would like to have papa with me so we could visit the "old time" farms where they thresh out their wheat in their own barns, as they do not know what such a thing as a thrasher looks like. Their barns are built right along side of their homes and I go out to watch them work as it certainly is interesting. These people here where I am quartered put me in the mind of being at home as they have plenty of milk and butter, and when I want a glass of milk or some eggs I just go in and help myself. Fry my eggs on the stove and fix me up a nice lunch, and sit down and eat it. If Madame—is not too busy she will fix it for me, and to try to pay for it, they take it as an insult, they say something which means in English, No, no, not at all, or something to that effect.

All the men certainly have comfortable quarters and our eats can not be beat. The "Orderly Room" is a private home and that is where I am quartered. It certainly seems strange to me to be behind lace curtains and see once more paper on the walls.

The man and wife where I am quartered are as nice as can possibly be, they speak a little English, and a "little" French, so we get along fine and I feel as if I am away from home at work and boarding at a private home.

I have so much to tell altho there is a certain amount that I can write, one really gets started on a subject and then he realizes that he has made a mistake, and has to start over again. In the French home the people all wear something like house slippers and when they go out, they have a pair of wooden slippers they slip on.

The colored troops are known to the French as the "Black Faced Americans".

Guess you can tell from the papers that the Americans are doing a wonderful amount of work and, are long, they will put an end to it all.

Please do not worry over me, as I am well and enjoying myself and from the way they are going after the Kaiser they will soon have his "goat". Tell all my friends hello for me.

I close asking God to bless you all, looking to Him for guidance and strength and trusting all to Him.

With love and sweet kisses,

Your son, Billy,

On Active Service with the

U. S. Marine Forces Operating thru

German Lines.

Aug. 10th, 1918.

My Dear Mr. Farra:

Had intended to write you a letter of thanks before for your appreciated favor of helping me in that work, while I was in the States. Have been a busy Marine since landing over here, and yet I am enjoying the very best of health and the country agrees with me fine. Am sure you know the part the Marines are playing, so you can still say a good word for us. I find the "Heinies" to be greatly outclassed when they run up against the boys of Uncle Sam, and they have

been told so often that we were no good, that their prisoners express a big surprise at our good show on the field—and I have yet to find a "Hun" who wasn't tickled to know that he was a prisoner in our hands and not in the German lines to be forced to fight.

Our Company was the first to take some prisoners here (on this front) and this "of course" is worthy to mention. Am fully expecting to see their finish soon, as I think by this time that this has even begun to creep into their hard heads. Something UNUSUAL for a Heinie you know. Had a letter from Judge Walker last month, in which he said Garrard was doing its bit. Glad to know this for I never wished the "Land of Now" to shrink on its duty.

Have lots to tell you and the people back home about this game when I get back, as the Censor will not permit me to mention our doings. Again thanking you and wishing you the very best of health, I am,

Sterling J. Herron,

P. S. You can say to father and my friends that I am still on top.

KIRBY.

Mrs. Maria Kirby breathed her last about three o'clock last Saturday afternoon at the Kinnaird home on Danville street in this city, and after funeral services by her pastor, Rev. Hudson, at the house on Sunday afternoon her remains were placed at rest in the Lancaster cemetery. For more than a year Mrs. Kirby had been an acute sufferer from a complication of diseases, and as she had failed rapidly during the last week, her death although a terrible shock to her family and the entire community, was not unexpected. Mrs. Kirby at the time of her death was approaching her 66th year.

No word that we could say would add to the loving memory of this truly consecrated woman; a daughter of the late William H. and Patsy M. Kinnaird, she was born and lived her days in Garrard county and Lancaster, and she was known to all. A member of the Presbyterian church from her childhood, she was ever a zealous worker in church affairs, and in any cause that was worthy, she was especially active and a teacher in the Sabbath School, and the little children, who were so fond of her, and to whom she gave her fondest love and attention will miss her sadly. She was also one of the most active and faithful members of the local W. C. T. U., and this organization will miss her sadly from their counsels. Charitable, yet unassuming in her charities, there are a great number of people, both white and black who will cherish her memory for some kindly act which she did for them.

No death that has occurred in Lancaster in recent years has cast a deeper shadow of sorrow than that of Mrs. Kirby, she was known to so many, and loved by all who knew her, and the hearts of the entire community were saddened by her taking, and all join in deepest sympathy for the family in their irreparable loss.

AT AUCTION.

On Saturday, September 28th at two thirty the school house and lot at Buckeye will be sold at public auction to the highest bidder. This is a very desirable piece of property and prospective buyers can see Mr. Oscar Ray at Buckeye or Miss Jennie Higgins, at Lancaster, concerning the terms.

BOURNE--ANDERSON

The marriage of Miss Minnie Bourne, and Mr. Jesse Anderson, was solemnized at Stanford Saturday, Sept. 7th, in the presence of a few intimate friends and relatives. While the popular couple had been sweethearts for some time their marriage came as a surprise to many.

The bride is the daughter of Mr. and Mrs. J. H. Bourne of this county and is quite attractive, popular and accomplished. The groom is one of Boyle county's most prominent farmers, and is worthy of the fair bride he has won.

Mr. and Mrs. Anderson will go to housekeeping on the farm of Mrs. Anna Hubble, near Hubble, she being a sister of Mr. Anderson.

No more popular couple was ever known than Mr. and Mrs. Anderson, and their many friends wish for them a long and happy married life.

BIG LAND SALE

Tuesday, September 17th

At Ten o'clock a. m. on the Premises.

THE SOLOMON VAN METER FARM recently owned by the Beasley Brothers, of seven hundred and seventy-five acres, located one mile from city limits of Lexington on Bryan Station Pike. The entire farm is in Blue Grass sod and has been for many years, a large part being virgin soil. Will be sub-divided into six tracts as follows:

TRACT NO. 1. Containing one hundred and forty acres, located on the West side of Bryan Station Pike, with the finest home on it in Kentucky, built by Mr. Van Meter about twenty years ago at a cost of fifty thousand dollars. A fine stock barn built by Beasley Brothers at a cost of five thousand dollars and all other necessary outbuildings.

TRACT NO. 2. Containing sixty acres adjoining tract No. 1 (on south side). No improvements but Virgin Soil.

TRACT NO. 3. Containing two hundred and fifteen acres, located on the East side of Bryan Station pike adjoining on the North the farms of W. C. H. Wood and the late John W. Marr, mostly virgin soil, all in Blue Grass sod, with fine woodland, the most beautiful building site in Kentucky, never-failing spring and pond.

TRACT NO. 4. Containing one hundred and twenty-seven acres, adjoining Tract No. 3 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past twenty years.

TRACT NO. 5. Containing one hundred and twenty acres, adjoining Tract No. 4 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past eighteen years.

TRACT NO. 6. Containing one hundred and twenty acres, adjoining Tract No. 5 on the South. A part of this tract is Virgin Soil and the balance in Blue Grass sod for the past twenty years.

This is one of the last big stock farms in Fayette County to be sub-divided for the small farmer and there is not a single tract of this land that won't pay for itself in two years either in tobacco or hemp. Every acre of it is ready for the plow. Only a mile from the city limits of Lexington. Did you ever have a better opportunity to buy a farm under better conditions? If you want a farm, all we ask is to look this one over.

TERMS will be liberal and will be announced on day of sale. Beasley Brothers, the late owners, who now live on the farm will take pleasure in showing you over the place.

Selfish Men
"Some men," said Uncle Eben, "is so selfish dat deir idea of heaven is a place whar dey'll be licensed to carry de only set of loaded dice in existence."

It Always Was.

We are so strong for the young mothers that even if one shows us a red little bunch of freckles weighing four pounds, we will take a solemn oath before a notary public that it is the prettiest and cutest youngster we ever saw and fight anybody who dares it.—Exchange.

Disgusted at Politics.

Recently a retired politician of note was giving a young man about to break into the political arena a bit of advice. "I've had everything it is possible to get except the presidency. When I started in politics things looked very bright—I got positions of trust, big appointments, and everything I wanted. Now all I have after years of activity is a lot of warm enemies and cold friends."

Professor Pickering thinks if he had \$10,000,000 he could talk with Mars. Hub! If we had \$10,000,000 we could make love to Venus.—Buffalo News.

Water and Air.

Water in contact with the air absorbs its carbonic acid in a decidedly practical degree. In densely populated districts this is of considerable importance. The difference is perceptible to the sense after a long drought, as the common expression "refreshing showers" indicates.

Primitive Methods of Farming.

In Central America many primitive agricultural implements are still retained. The native farmer still uses a plow with a crooked tree-branch pointed with iron. The objection to the modern two-handled plow is that one hand is needed for guiding the animals, hence the introduction into Honduras of a trial-modern-style plow with one handle.

Old New York Tree.

The oldest tree in New York, or anywhere near the city, is probably the famous tulip tree near the south bank of the Harlem ship canal, a few hundred yards from the Hudson river. The foresters have estimated its age at something near three centuries, but that guess may be somewhat short of its true age, for the trunk is far from symmetrical, and had been subjected to hard usage before the park department repaired its burned and rotted interior and put an iron fence around it to keep vandals at a distance.

Germ-Proof Money.

To a bank in Spokane, Wash., belongs the distinction of circulating the first antiseptic germ-proof national bank notes. The United States treasury is still experimenting with devices to launder dirty bank notes to bright, crisp ones, but the Spokane bank has the first sanitary money on record. Fifty thousand dollars in bills, put out by the bank, were signed with an ink said to consist largely of carbolic acid. The result is the bills are saturated with an agency which means death to the most vigorous germ who'd live there.

Make Life Worth Living.

The question, Is life worth living? implies a species of blasphemy. The right question to ask is: Am I worthy of living? If I am not, I can make myself so. This is always in my power.—Felix Adler.

War's Glory.

War, like all other situations of danger and of change, calls forth the exertion of admirable intellectual qualities and great virtues, and it is only by dwelling on these and keeping out of sight the sufferings and sorrows, and all the crimes and evils that follow in its train, that it has its glory in the eyes of men.—Bryant.

Ears Continue Growing.

It is said that throughout one's lifetime one's ears continue to grow bigger. The ears of a girl, admired perhaps for their small size, are fairly large by the time she has reached middle age. In old age they may be larger. In any company of people one may notice that it is the elders who have the big ears. In the very old they are overgrown.—Boston Globe.

The Life of John Buckley.

It was ancient history to some that the "Life Story of John Buckley," edited by the well-known J. C. Buckmaster of the South Kensington museum, London, was really the story of its editor's life. It was one of the books of its season in 1907, one of the best bits of biography we have in fact, and I am not surprised to find that the question of its authorship has bobbed up once again in the old country.

Atricious Pun.

Councillor Lamb, an old man when Lord Erskine was in the height of his reputation, was of a timid and nervous disposition, usually prefacing his pleadings with an apology to that effect; and on one occasion, when opposed in some cause to Erskine, he happened to remark that he felt himself growing more and more timid as he grew older. "No wonder," replied the relentless barrister, "every one knows the older a lamb grows the more sheepish he becomes."

**CARROLLTON COUNTY FARMER
PRAISES VIN HEPATICA AS FINE
NERVE AND STOMACH TONIC.**

USES IT FOR HIS WHOLE FAMILY FOR STOMACH AND NERVES.

Mr. A. T. Tandy, farmer, Highland Avenue, Carrollton, Ky., writes under date of February 2, that after suffering from nervousness and stomach trouble, he has found Vin Hepatica a fine medicine for such purposes.

"I have used several bottles of Vin Hepatica, in my family the last three months," says Mr. Tandy, "and it is a fine medicine for nervousness and stomach trouble."

That is just the way thousands of others are talking about this famous Vin Hepatica, a prescription of eight of the finest all-vegetable stomach

and nerve remedies and tonics. It goes at once to the seat of the trouble, stops indigestion, arrests catarrhal conditions, acts on the liver, kidneys, stomach, and bowels, enriches the blood and tones up the entire system.

If you are nervous, have stomach, liver, or kidney trouble, or are in a weak and run-down condition, and need a fine tonic, come in and get a bottle of this great Vin Hepatica prescription, and take it on our recommendation.

(d) He may be assigned to the vocational training section of the Corps for technician training of military value.

(e) He may be transferred to a cantonment for duty with troops as a private.

4. Similar sorting and reassignment of the men will be made at periodic intervals, as the requirements of the service demand. It cannot be now definitely stated how long a particular student will remain in college. This will depend on the requirements of the mobilization and the age group to which he belongs. In order to keep the unit at adequate strength, men will be admitted from secondary schools or transferred from Depot Brigades as the need may require.

Students will ordinarily not be permitted to remain on duty in the college units after the majority of their fellow citizens of like age have been called to military service at camp. Exception of this rule will be made, as the needs of the service require it, in the case of technical and scientific students, who will be assigned for longer periods for intensive study in specialized fields.
